

EARC Coordinator: Gene Spillman

EARC Volunteers:

Notes:

EVENT BASICS:

- 1. Contact the event co-ordinator (important!).
Check the webpage, phone book, etc.
If they have pre-event meetings attend if you can.**
- 2. Get the schedule. Date of the event.**
- 3. Find out the course, check their webpage or ask them. Make a copy if they have one on their webpage or give you one.
Use an Enid map or Google Earth to make your own otherwise.**
- 4. Email info and a copy of the course map to those involved.
Also you can make copies and take it to the club meeting.
Post the map to the EARC web site if possible for others to get.**
- 5. Contact Tom or Jeff Worth. N5LWT and N5UBY and get permission to use the 147.375 repeater if the event is downtown.
Get the codes to shut down the echolink and bring it back up.
Several other club members know them.**
- 6. Choose primary and alternate frequencies for event in case one repeater fails and communicate to volunteers. Be sure everyone has the the simplex frequencies programmed in radio.**

Name: Lynne Benkendorf
Position/Title: Event Coordinator
Phone Number: 580-548-8194
Email Address: ibenkendorf@eaglemkt.com
Website: <http://www.reddirtbbq.com>

Assisting with traffic control during team and vendor arrival Friday Morning.

Due to construction in the area we will need assistance monitoring traffic at the intersection of Cherokee and Independence, Cherokee and Washington and Independence and Oklahoma.

Teams and or vendors will be allowed to unload / park at cooksites or unload at convention hall. We need assistance with keeping local traffic from coming through and to allow vendors in and out of the barricades. We will be utilizing the new parking lots at Oklahoma and Independence as well as the north end of the parking lot west of Q-spot. Independence will be barricaded from Cherokee to Park to allow vendors to set up in Independence Street. Cherokee will be blocked off to through traffic for overflow teams and or vendors.

Request Date: 3/6/2013 16:11:32
